

Release Note for Smart-telecaster™ HD View Single

☐ **Outline**

This update includes Update Feature, Bug Fix and specification change.

For details, please check the following.

☐ **Smart-telecaster HD View Single V2.3.1 ⇒ V2.3.2**

1. Fixed a bug that failed to install the application.
2. Adjusted the lip sync when connecting Zao App for iOS.
3. Fixed a bug that unsupported frame rates (59.94i, 50i) can be selected when connecting Zao App for iOS.

☐ **Known issues**

1. When the recorded file (mp4) is played with Windows Media Player, the lip sync may be greatly shifted.
 - * Other players such as VLC Media Player can play normally.
